Dear Mr. Harvey:

Thank you for taking the time to participate in the discussions we have been having about the future of alternative energy in Michigan. There is little question that this growing industry holds great promise for our state and its citizens. By working together to nurture its growth, we absolutely can transform Michigan's economy.

Over the course of the last six weeks, I've had the pleasure of meeting with 59 companies in 13 communities across the state. From the state capitol in Lansing; to Escanaba in the Upper Peninsula and everywhere in between, this conversation about alternative energy is creating great "energy" of its own. I look forward to working with you to make Michigan North America's alternative energy hub.

Again, thank you for your time, your input, your ideas and your enthusiasm. Green energy means great jobs for Michigan – thank you for helping to make it a reality.

Sincerely yours,
